

REAL ESTATEMANAGEMENT SYSTEM USER TESTING

Role / User Testing Sheet

This validation sheet provides a panel with immediate verification credentials to evaluate dynamic view filtering and structural resource isolation.

Tester Account Profile	Role Class	System Authentication Email	Plaintext Password	Expected Access Boundaries & UI Controls
Boss Admin	Admin	admin@123.com	123	Full core execution context. Exclusive visualization rights to the System Administration interface panel, full user modification links, and global reporting controls.
Trevor	Manager	manager@123.com	123	High-level tracking access. Can execute property profile additions, view operational summaries, inspect owner listings, and monitor global work orders. Cannot view administrative system blocks.
Olwethu	Agent	agent@123.com	123	Field listing access profile. Restricted solely to property creation forms (AddProperty.jsp) and standard property gallery visibility profiles.
Bafana	Tenant	tenant@123.com	123	Standard occupant self-service profile. Restricted strictly to rental application submissions, viewing active requests, and log entries for household maintenance tickets.
Issac	Maintenance	staff@123.com	123	Field technician operational profile. Reads the master active issue registry. Restricted to a read-only view of structural properties and full update privileges for work orders.
Neo	owner	owner@123.com	123	Structural investor profile. Restricted to viewing properties linked to their explicit profile token identifier.
